

Summary of Church Health Consult

The assessment includes an on-site visit with interviews of key leaders, officers, and staff, analysis of relevant history, church life, demographics of local area, and the vitality of the worship service. The focus of the interviews will be directed toward determining:

- Effectiveness of leadership
- Nature of relationships in the church
- Effectiveness in missional engagement
- Vitality of worship and prayer
- Clarity of Gospel Communication
- Effective Operating Systems
- Clarity of roles and responsibilities among leaders
- Clarity of and progress in mission ownership

The findings and observations will then be developed into an assessment report with observable strengths and recommendations offered for any “Blind spots” or major ministry “Stallers or Stoppers”.

“I believe providing feedback is the most cost-effective strategy for improving performance and instilling satisfaction.” Ken Blanchard
